

Indicative Study Plan

Programme Title	MSc Computer Science
Indicative Study Duration	24 Months*
Credits	180

Modules to be studied:

Module Title	Credits	Module Duration
Global Trends in Computer Science	15	8 weeks
Software Development in Practice	15	8 weeks
Databases and Information Systems	15	8 weeks
Networks and Web Technology	15	8 weeks
Multi-Agent Systems	15	8 weeks
Research Methods in Computer Science	15	8 weeks
Choose one Elective Module from the following:		
Machine Learning in Practice	15	8 weeks
Reasoning and Intelligent Systems	15	8 weeks
Robotics	15	8 weeks
Choose one Elective Module from the following:		
Cloud Computing	15	8 weeks
Data Visualisation and Warehousing	15	8 weeks
Information Technology Leadership	15	8 weeks
Security Risk Management	15	8 weeks
Strategic Technology Management	15	8 weeks
Technology Innovation and Change Management	15	8 weeks
Final Module		
Computer Science Capstone Project	60	32 weeks

*Important Notes:

- The indicative study duration is subject to module availability and is based on studying each module consecutively.
- Module start dates will be available on the learning platform and confirming by the Student Support Team, who will manage your enrolment onto each module.
- If you take a break from your studies or need to undertake reassessment it will not be possible to adhere to the indicative study duration of 24 months.
- The maximum period allowed for you to complete your programme is 72 months (6 years) calculated from the start date of your earliest enrolment.
